

Circle of Emptiness

I get bent, frustrated, and disconnected, my fate deflates into an abyss
Life's a prism of possibilities, carved out by your sensibilities

Gotta do what it takes to come through, you heart, your spirit and your kiss
Journey to the center of your vanity, Absolute nothingness

Circle of Emptiness, Circle of Existence
Circle of Emptiness, Circle of Existence

I get on a roll and feel connected, my fate inflates into bliss
Wrapped up in a circuit board that keeps triggerin'
One with a lingering continuum, that I keep diggin' on

Gotta do what it takes to come through, you heart, your spirit and your kiss
Journey to the center of your vanity, Total everythingness

Circle of Emptiness, Circle of Existence
Circle of Emptiness, Circle of Existence
Emptiness, Existence, Emptiness, Existence

All right I'm feeling it, all right I'm feeling it
Gotta be nowhere, somewhere and anywhere
All right I'm feeling it, all right I'm feeling it
Everywhere

Gotta do what it takes to come through, you heart, your spirit and your kiss
Journey to the center of your vanity, Nothingness and everythingness

Circle of Emptiness, Circle of Existence
Circle of Emptiness, Circle of Existence
Emptiness, Existence, Emptiness, Existence

Ya ah ah, Ya ah ah
